NAIROBI

Dear

Sir,

**RE: OBJECTIONS TO GRANT OF A POWER GENERATION LICENCE
BY SAVE LAMU AND THE COUNTY GOVERNMENT OF LAMU**

On 28th October 2016, the Commission received a letter from Save Lamu Natural Justice objecting to the grant of an electric power generation licence to yourselves. The letter was also copied to you.

Whereas we advised you in our letter dated 5th October 2016 that your application was materially complete, we have since noted that:

- (1) The conditions attached to the Environmental Impact Assessment (EIA) licence from the National Environmental Management Authority (NEMA) were not included.
- (2) An objection from one department of the County Government of Lamu was withdrawn by a different department on the basis of the EIA licence referred to in paragraph (1) above.

Pursuant to Regulations 8-10 of the Energy (Electricity Licensing) Regulations, 2012, the Commission intends to hold a public hearing to deal with the objections on 24th November 2016 at a venue to be advised later.

Consequently, consideration of your application for the licence has been put on hold until the objections are determined.

Yours *Sincerely,*

Eng. Joseph Ng'ang'a
DIRECTOR GENERAL
